Description

This class extends **TourNode**. A single node in the tour, which is a room. Rooms can't do anything, the only functionality in a room is to go back (handled by **TourHandler**).

Constructors

- **public TourRoom(int);**
  - creates a new **TourRoom** with a background image of the resource value sent

Methods

- **void paint(TourInfo);**
  - paints the background and makes the buttons do nothing
