COSC 3F00: Peer Evaluation Form

SEE INSTRUCTIONS AT BOTTOM

● TEAM # _____: TEAM NAME _____

● YOUR SURNAME, GIVEN NAME: _____

● YOUR STUDENT # _____

● YOUR SIGNATURE:_____ DATE: _____

● EVALUATION OF YOUR PEERS:

SURNAME, GIVEN NAME:	SCORE (%)	STUDENT #	COMMENTS
CHECKSUM TOTAL =>			

● **INSTRUCTIONS:**

1. Fill the top part of the form, identifying your team and yourself. Your personal info will be kept confidential. Team members will not know who gave whom what score, although everybody will know the average score earned.
2. List all the members of your team **(except yourself)** in the first and second column of the table above. Preserve the order in which their names appear on the team membership form, accessible from the course website home page.

3. List the student numbers of your teammates (in the last column of the table) - if you do not know some numbers, leave blank.
4. Count the names you have listed in the table above. Let this number be N. You are now given 100*N "brownie points". Distribute these points among your teammates (in column labeled "**SCORE (%)**") proportionally to their overall contribution to the team effort. If an expected contribution = actual contribution of a given member, that person should score 100 brownie points. You cannot assign negative points to anybody and you MUST give out all your brownie points.
5. Add-up the numbers in column labeled "**SCORE (%)**" and write the value of **CHECKSUM TOTAL**. If everything is correct, this value should equal 100*N.
6. Give the filled form **in a sealed envelope** to your team coordinator, who is requested to drop into your instructor's mailbox (room J314) the **complete set** of peer evaluations from your team.
